

STATE OF NEW JERSEY DEPARTMENT OF EDUCATION

New Jersey Student Learning Assessment-ELA (NJSLA-ELA) and New Jersey Student Learning Assessment-Mathematics (NJSLA-M)

The New Jersey Student Learning Assessments for English Language Arts/Literacy (NJSLA-ELA) and for Mathematics (NJSLA-M) measures the extent to which students are, or on track to being college or career ready in each of the two respective areas. The test in English Language Arts/Literacy assesses student proficiency in reading and comprehending a range of grade appropriate material independently. It also provides a measure of how effectively a student writes when using and/or analyzing sources. The test in Mathematics measures student competencies in the major and additional/supporting content in mathematics for grade or course, as well as student grade-appropriate mathematical reasoning and modeling skills. Additional information for the assessments in the above areas can be found on the Office of Assessments [website](#).

New Jersey Student Learning Assessment-Science (NJSLA-S) Program

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency in science according to the New Jersey Student Learning Standards. These standards require schools to teach students to use science and engineering practices, to make sense of phenomena, and to design solutions to problems. The NJSLA-S uses the same familiar testing platform that NJSLA-ELA and NJSLA-M uses.

3rd - 4th Grade will be assessed in Math & ELA at Cresthaven Academy Charter School, Testing will be computer based with paper based options for students with disabilities. The testing window for MATH & ELA is projected to take place in April-May 2021. The assessments are required by both the state and federal government. Results will be available around mid to late August 2021.
